Highlights & Latest Works

client: Naturol S.r.l.

project: Hit&Run Pet Food

role: Art Direction, Branding & Packaging Design

Development of a complete visual system applied to dry and wet food, snacks, dental products and communication materials. The bold urban identity is combined with clear product differentiation, ensuring consistency and strong brand recognition across the entire range.

client: New Vision Project

project: Beach Tennis Collection

role: Product Graphics, Apparel & Art Direction

Creative direction and product design for an international beach tennis brand. The project includes graphics for rackets, technical apparel, accessories and promotional materials, combining strong visual impact with the manufacturing requirements of sports equipment.

client: Naturol S.r.l.

project: You&Me Pet Care

role: Branding, Packaging & Communication

Development of a friendly and accessible visual identity applied to wet and dry food, cat litter and training pads. Soft colours, hand-drawn illustrations and a clear information structure create a consistent system for everyday pet care.

client: Legar

project: Sports Ball Collection

role: Product Design, Graphics & Communication

Graphic development for football, futsal, volleyball and handball products. Technical panel structures, colour systems and dynamic patterns were coordinated with promotional imagery, creating a recognizable visual language across different sports disciplines.

client: La Montina / Padel Cellar

project: Luxury Padel Concept

role: Product Design, AI-assisted Concept Design & 3D Visualization

Concept development for a premium padel project combining sport, luxury and brand identity.
La Montina’s visual language is translated into customized rackets, materials and finishes through product design, AI-assisted concept development and 3D visualization.

MONTINA
FRANCIACORTA

Advertising & Communication

client: Aeroporto di Bologna

project: Institutional Advertising Campaigns

role: Art Direction & Print Communication

A series of campaigns created to communicate accessibility, service quality and the airport's connection with the city. The visual system was adapted for outdoor advertising, print and internal communication, maintaining a consistent institutional tone and an immediately recognizable identity.

client: Chiasso Perduto

project: Cultural Communication

role: Art Direction, Print & Social Media

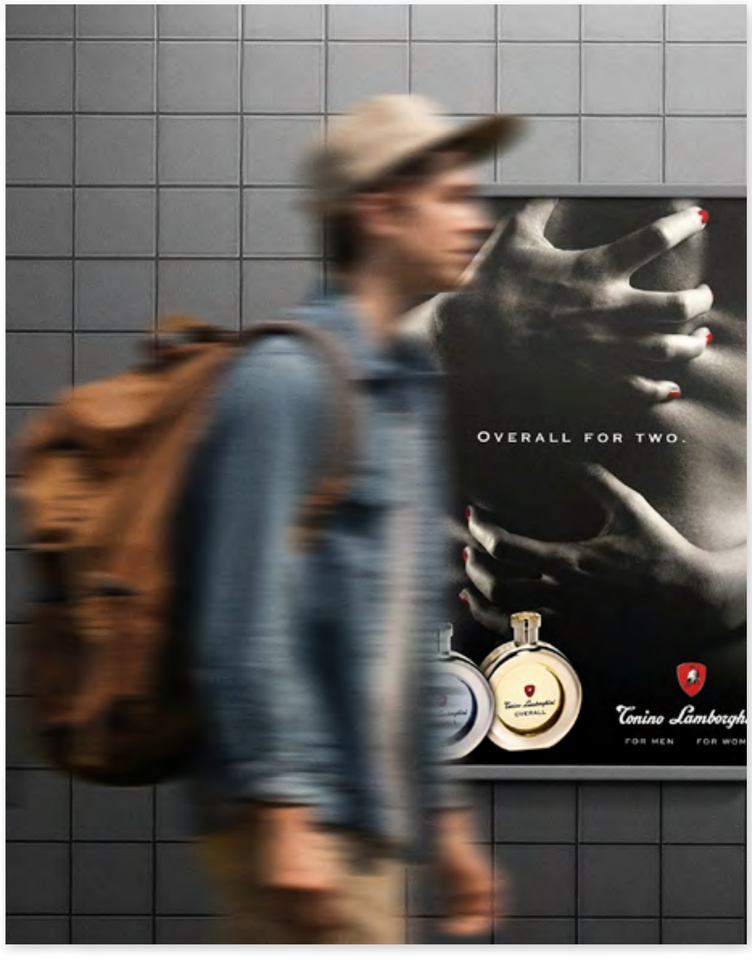
An independent visual identity developed for cultural events, exhibitions and artistic initiatives. Experimental typography, tactile textures and editorial compositions give the project an unconventional character, adaptable to posters, social media and urban installations.

client: Tonino Lamborghini

project: Luxury Communication

role: Art Direction & Advertising

Advertising and editorial concepts developed for accessories, eyewear, watches and fragrances. The visual direction combines technical details, dark atmospheres and dynamic photography, reinforcing the brand’s premium identity and automotive inspiration.



client: Planet Bo - Confruit

project: Food & Beverage Campaigns

role: Advertising, Packaging & Editorial Design

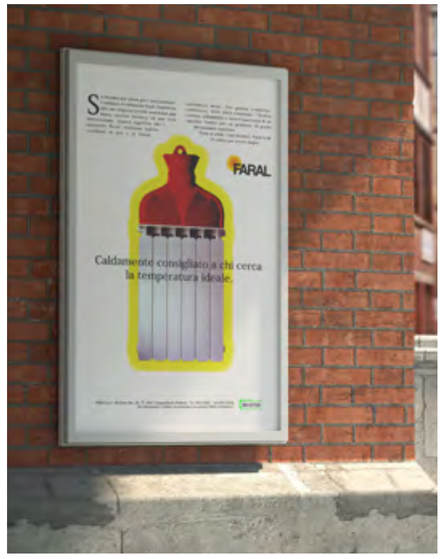
Integrated campaigns developed for food and beverage products, ranging from traditional preserves to fruit juices. Each concept translates the product's characteristics into a distinctive visual story, applied across print, outdoor advertising, editorial materials and point-of-sale communication.

client: Multiple Brands

project: Selected Advertising Campaigns

role: Art Direction, Advertising & Print Design

A selection of projects developed for companies operating in the security, construction, healthcare and service sectors. The campaigns explore different communication styles, ranging from conceptual advertising and direct marketing to editorial and promotional design.



Packaging & Product Design

client: Naturol S.r.l. / Risparmio Casa

project: Augustus Nutri Pro

role: Brand Development & Packaging Design

A premium pet food range developed for large-scale retail distribution. The system combines dark surfaces, metallic details and strong recipe-based colour coding, creating a recognizable product line for adult dogs and sterilised cats.

client: Naturol S.r.l. / Iper Tosano

project: Premiami Pet Food

role: Packaging Design & Product Communication

A coordinated system for dry food, sterilised product lines and natural snacks for dogs and cats. The white packaging architecture and recipe-based colour coding improve shelf readability while communicating quality, freshness and nutritional specialization.

iper tosano

client: PAAR

project: Padel & Beach Tennis Products

role: Brand Identity, Product & Packaging Design

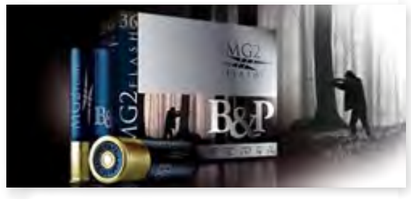
Complete development for a brand specializing in padel and beach tennis. The project includes rackets, packaging, accessories and promotional materials, combining technical functionality, recognizable geometric elements and customized patterns.

client: Planet Bo / Baschieri & Pellagri

project: Ammunition Packaging

role: Packaging & Product Communication

Graphic design for specialist hunting and shooting cartridge ranges. The project balances technical information, product-range differentiation and premium positioning through typography, photography and carefully controlled colour coding.



client: Various Brands

project: Private Label Pet Food

role: Packaging Design & Production Development

A selection of private-label projects for pet food, snacks, dental products and display units. Each solution was developed according to specific market, manufacturing and distribution requirements, from the initial concept through to print-ready artwork.

Apparel & Fashion Graphics

client: Patrizia Pepe

project: Fashion Graphic Concepts

role: Graphic Design & Apparel Applications

A series of graphic concepts developed for T-shirts and women's casual apparel. Photography, botanical imagery and editorial typography are combined in versatile, contemporary prints consistent with a fashion-oriented brand positioning.

client: Amina Rubinacci
project: Fashion Pattern Concepts
role: Textile Graphics & Apparel Design

Graphic studies developed for knitwear, shirts, outerwear and T-shirts. Monograms, typographic textures and minimal illustrations were designed to integrate with the brand's elegant identity, ranging from understated patterns to more prominent graphics.

client: STIB 19

project: Textile Pattern Collection

role: Pattern Design & Creative Direction

A collection of original patterns developed for furniture, fashion and interior design. Organic shapes, abstract marks and contemporary colour palettes were applied to fabrics, apparel and interior settings, demonstrating the project's versatility from sample collection to finished product.

client: New Balance

project: Teamwear & Lifestyle Concepts

role: Graphic Concepts for Apparel & Products

An independent concept exploring the relationship between performance, teamwear and lifestyle. Patterns and graphic systems were applied to uniforms, footwear, accessories and fashion garments, creating a flexible visual language for different product categories.

client: Macron
project: Multisport Teamwear Concepts
role: Apparel & Product Graphic Concepts

An independent collection developed for football, basketball, motorsport and leisurewear. The project explores club identities, technical patterns and colour systems, demonstrating how a shared graphic direction can be adapted to different sporting disciplines.

Independent Brand & Shop

client: ZeLab

project: Independent Apparel Graphics

role: Illustration & T-Shirt Design

A collection of experimental T-shirt graphics, ranging from minimal geometric compositions to illustrated characters and conceptual messages. The project explores different visual languages while maintaining a direct, contemporary and highly wearable approach.

PROFILO

Graphic Designer Specializzato in brand design, comunicazione e product marketing.

Dal 1999 opero nel settore della comunicazione visiva, curando e supervisionando l'intero percorso di realizzazione: dalla creatività al prodotto finito. La mia esperienza spazia dal prodotto stampato tradizionale (advertising, packaging, booklets) alla pubblicazione online, con una forte competenza tecnica nei processi di stampa, pre-stampa e personalizzazione (serigrafia, transfer).

La mia attività si sviluppa su due binari paralleli:
Gestione Account Diretti: consulenza professionale dedicata alle aziende che vogliono curare la propria immagine attraverso un contatto diretto e una supervisione costante di ogni fase produttiva.
Supporto tecnico-creativo esterno per lo sviluppo di progetti complessi e brand di rilievo.Collaborazioni per conto terzi: partnership con agenzie pubblicitarie e uffici stile, fornendo supporto tecnico-creativo esterno per lo sviluppo di progetti complessi e brand di rilievo.

Fondatore di PH2 LAB, offro un servizio basato sul "saper fare" e sull'esperienza pratica, garantendo soluzioni visive efficaci e una gestione diretta con fornitori e reparti tecnici per assicurare la massima qualità sul prodotto finito.

SKILLS

1 Competenze Progettuali & Strategiche

- Analisi del brief, identificazione delle priorità e trasformazione di obiettivi in concept visivi.
- Progettazione di sistemi di identità di marca (Branding) coerenti e scalabili.
- Consapevolezza avanzata in ambito tipografico, cromatico e compositivo.
- Capacità di argomentare le scelte progettuali con criteri di efficacia e dati.
- Approccio propositivo: capacità di pensare e decidere, non solo produrre layout.

2 Competenze Tecniche e Produttive

- Padronanza di tipografia avanzata, regole di composizione e griglie editoriali.
- Gestione del colore e calibrazione specifica per stampa (offset, digitale, sublimatica) e web.
- Preparazione file esecutivi e gestione delle esportazioni professionali per la produzione.
- Basi di motion graphic per animazione loghi, UI e contenuti dinamici.
- Competenze 3D per packaging, render di prodotto e visualizzazioni fotorealistiche.

3 Tool & Digital Skills

- Adobe Creative Suite: Padronanza assoluta (Photoshop, Illustrator, InDesign, etc.).
- 3D Design: Utilizzo di tool per modellazione e rendering (Blender, Cinema4D).
- AI Generativa: Utilizzo consapevole DI strumenti di intelligenza artificiale per l'ottimizzazione del workflow.
- Content Creation: Produzione di contenuti multiformato per social media, web e media digitali.

GRAPHIC DESIGNER

ESPERIENZE

➜ 1997/1999 Direttore della Produzione c/o Upper Deck International - Weesp (NL)

In qualità di Head of Printing & Production, ho coordinato la realizzazione tecnica di prodotti premium per icone dello sport mondiale come Michael Jordan e la Nazionale Italiana (Azzurri). Il ruolo ha comportato la gestione di sfide produttive ad alta complessità, tra cui:

Color Matching & Skin Tone Fidelity: calibrazione cromatica millimetrica e gestione degli avviamenti stampa per garantire la perfetta resa degli incarnati e dei colori istituzionali su supporti cartotecnici ad alta grammatura.

Gestione Supporti Speciali: supervisione della stampa su materiali non pieghevoli e gestione di nobilitazioni tecniche (ologrammi di sicurezza, fustellature sagomate e laminature metalliche).

Processo Industriale: controllo rigoroso dei fogli macchina e verifica dei registri di stampa per assicurare standard qualitativi d'eccellenza su produzioni su vasta scala.

➜ 1999/2001 Graphic Designer c/o Grafik Studio - Bologna

➜ 2001/oggi Freelance con partita IVA

Dal 2001 svolgo attività freelance con Partita IVA. Con PH2 LAB collaboro con aziende, agenzie di comunicazione e uffici stile, seguendo progetti creativi e produttivi dalla fase iniziale alla realizzazione finale.
